

Data Center Valve Solutions

Ohio Valve Company manufactures quality valves trusted to perform in mission-critical environments.

When dependability is the top priority, Ohio Valve Company valves provide zero-leakage, fire-safe valve options for installation in mission-critical environments.

Ohio Valve Company (OVC) manufactures a comprehensive line of valves designed to handle the critical needs of data centers. Trusted by engineers and emergency maintenance managers, OVC valves are rigorously tested to ensure reliable performance in mission-critical environments. OVC resilient and high-performance butterfly valves are ideal for cooling towers and chiller systems. For backup generator fuel supply systems, OVC provides uncompromising safety with fire-safe ball valves.

BUTTERFLY VALVES FOR COOLING TOWERS AND CHILLER SYSTEMS

- ✓ Controls the flow of incoming water based on cooling needs.
- ✓ Minimizes energy waste when low pressure drops.
- ✓ Enables quick isolation for maintenance or repairs.

FIRE-SAFE BALL VALVES FOR BACKUP GENERATOR FUEL SUPPLY SYSTEMS

- ✓ Maintains a seal even when exposed to extreme fire conditions.
- ✓ Full-Port design minimizes restrictions of fuel flow.
- ✓ Ensures a reliable flow of fuel during fire emergencies.

Data Center Valve Solutions

Ohio Valve Company manufactures quality valves trusted to perform in mission-critical environments.

COOLING TOWER & CHILLER VALVES	 <p>150# & 200# RESILIENT SEATED BUTTERFLY VALVES 4800 & 4802 SERIES DUCTILE IRON</p> <p>KEY FEATURES API 609 Design Standard • Lever & Gear Operation • Dead End Service</p>
	 <p>150# & 300# HIGH PERFORMANCE BUTTERFLY VALVE DOUBLE OFF-SET CARBON & STAINLESS STEEL</p> <p>KEY FEATURES API 609 Design Standards • Lever & Gear Operation • Dead End Service • ABS Certified • NSF 61 Certified</p>
FIRE-SAFE BACKUP VALVES	 <p>FIRE-SAFE FULL PORT 3-PC BALL VALVES 2366FT / 2366FW CARBON & STAINLESS STEEL</p> <p>KEY FEATURES Fire-Safe • Slide Latch Locking Device • NACE MR0175 • ISO 5211 Mounting Pad • 150 PSIG Saturated Steam Rating</p>
	 <p>150# FIRE-SAFE FULL PORT BALL VALVES 256F150FS / 266F150FS CARBON & STAINLESS STEEL</p> <p>KEY FEATURES Fire-Safe • Locking Device • ISO 5211 Mounting Pad • Anti-Static Device • Pressure Relief Vent on Ball • Lever & Worm Gear • ABS Certified</p>
