# **Nickel and Stainless**Round Bar

As part of the Texas Pipe & Supply Family of Companies, J&J Bar Plus services global and local customers with round bar distribution.

We stock stainless and nickel round bar in multiple sizes across 18 different material grades, servicing OEM's, machine shops and other distributors in the oil and gas, refining and other heavy industrial markets. Anywhere there is a corrosive/erosive nature of material in a flow, high pressure application, or high heat environment, our industry experts are ready to assist you in providing the round bar products you need.

- ISO Certified
- ASTM; ASME; ANSL; EN; DFAR compliant
- Same day cutting capability
- Turnkey inventory stocking programs
- 24 hour call out service
- Custom cutting round bar in sizes up to 18"
- Testing and secondary heat-treating services
- Special packaging available
- Material specially certified upon request
- Sourcing for plate, forgings, castings, pipe, fittings, and many exotics alloys such as Titanium, Stellite, and Ferralium
- Trepanning, Grinding, and Turned, Ground & Polished TG&P Bar
